By Camille Perri : The Assistants the united states only certifying organization for physician assistants providing certification exams certification maintenance recertification and specialty caqs nonprofit professional association dedicated to education and certification of virtual assistants The Assistants:

8 of 8 review helpful I loved this book By Jana R I loved this book It was a quick and easy read with a fun story line It's not serious literature if that's what you're looking for but it will keep you entertained the whole way through While you might not agree with the girls and their actions you can totally see how this could happen It all started innocently enough And with our ever increasing gap between the have and the have nots The debut novel that J Courtney Sullivan calls "addictive, hilarious and smart" is a must-read for the student loan generation. Publishers Weekly describes it as "a must-read for the characters from HBO's 'Girls' were capable of larceny and blackmail." Rule 1: All important men have assistants. Rule 2: Men rule the world. Still Rule 3: There is enough money. There is so much money. Tina Fey's Perri's debut is reminiscent of the golden era of early aughts chick lit... The characters' millennial concerns—overwhelming student loan debt, underemployment, loneliness in a world of hyperconnectivity—ring true making this a must-read.
