7 of 7 review helpful Not the best introduction to Pekar By John S Gurney If you have never read any of Harvey Pekar s work you should NOT start with this anthology I loved the movie and wanted to experience some of his comics so I

picked this probably based on the cover by Drew Friedman I guess I should have known by now that if the title says new anthology then the better stuff would be in the original anthology American Splendor is the series that sparked a revolution in comics and brought graphic novels to the attention of post adolescent readers everywhere Here is the best of American Splendor and other comics by Harvey Pekar including never before seen material
