0 of 0 review helpful sharing the good things in life By Peg I saw Ross Mathews on a recent morning show publicizing his book it sounded interesting so when offered the Kindle version on a great special I eagerly purchased it and read it and readers I was not disappointed Ross grew up in northwest USA and gives a great intro on life in a smallish town surrounded by rural areas and farming communities I enjoyed him In this hilarious and inspirational memoir Ross Mathews best known as Ross the Intern from The Tonight Show with Jay Leno chronicles his life growing up as an atypical kid in a small Northwestern farm town to living as an atypical adult in Los Angeles to eventually being his loud proud apologetically genuine self on national television As a young kid growing up in a farm town Ross Mathews might as well have wished for a pet unicorn or a calorie free From Publishers Weekly Former Tonight Show with Jay Leno intern Ross Mathews offers this hilarious account of his rise to success and stardom With his trademark high pitched voice and girlish laugh Mathews is on fire from start to finish in this inspired read
