11 of 11 review helpful Come For the Games Stay for the History By Dinogirl7 A fun read I only wish there was more of it Which is actually why I deducted a star the book is half as long as I expected with about 50 of the page count devoted to reviews of these terrible old games The other half is a long list of names of people who supported the book on Kickstarter There s also a long Choose Your Own Adventure secti Terrible Old Games You ve Probably Never Heard Of is a full color illustrated compendium of the most painfully bad games based on Ashens YouTube series of the same name Everyone s heard of E T for the Atari 2600 and Superman for the Nintendo 64 but these are almost nothing next to the abject incompetence of Count Duckula 2 on the Amstrad CPC There are people who seriously believe that Shaq Fu is the worst fighting game ever made having never experience Stuart Ashen does a great line in Larry David esque incredulity and excels at rounding up a gang of genuinely obscure implausibly released rubbish
