1 of 1 review helpful If you enjoy cruising give this a read By chr1s60 I bought this book because I enjoy going on cruises and thought it would be interesting to get a bit of a behind the scenes view of the cruising world The book is well written and does a good job of sharing behind the scenes information funny stories and an overall story line

following the author through his experience entering the cruise ship world. In *Cruise Confidential* Brian David Bruns spills the dirt or in this case the dirty water on those romantic fun filled vacations at sea. His hilarious chronicle of the year he spent working for Carnival Cruise Lines takes readers down into the areas where the crew works and lives leaving readers gasping with laughter as they're assaulted nonstop with events that range from the absurd to the utterly bizarre. Stewards fighting over food. Cutlery. From Booklist: Bruns, founder of a successful software company, decided to follow his new girlfriend who worked on a luxury cruise liner and enjoy a high seas adventure. His plan to get hired on as a member of the crew.
